SUMMARY

Detail-oriented Software Engineer specializing in front-end development with React.js, skilled in designing and delivering high-quality websites that cater to user and stakeholder needs. Demonstrated expertise in software design, architecture, and fostering team collaboration, which enhances project outcomes and accelerates learning. Offers a strong commitment to creating user-friendly solutions that drive satisfaction and engagement.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer
Createvio Company

- Used JavaScript, SQL, PHP, Bootstrap, AOSweet alert, PHPflasher, and HTML to develop app-solutions
- Increased website performance by optimizing front-end and back-end code for faster loading times
- Applied responsive design principles to ensure consistent display and functionality across a wide range of devices, including mobile phones, tablets, and desktop computers

Front End Developer
ITI

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms
- Worked closely with UX/UI designers to translate their designs into functional web applications
- Utilized version control systems such as Git to track changes throughout the development process
